Your Submission:

I wish to register my concern and strong disapproval of the council raising the rent of council housing tenants by 24% without first identifying this issue in the Annual Plan and the Admentments to the LTCCP process. This is a significant issue and a significant amount of money to increase the rents by and will cause hardship in many cases. For example a married couple will not recieve any accomodation supplement to cover this increase. The increase of rents is totally unnecessary as the council has not explored the option of obtaining money from central government as other major cities have been successful in doing.
