Daytime Phone:	3385215
Email:	readash@hotmail.com
Address:	33 Gainsborough St HoonHay Christchurch
Your Submission:	<p>My thoughts toward public transport in Christchurch are that with the population increase therefore transport increase and the need for greater public transport, IE buses. That terminuses could be built on the edge of the UBD such as the four avenues for buses to drop off and pick up passengrs and run electric shuttles to /from the inner city to these terminuses. An increase in the number of these electric shuttles would be essential .As there will be an increase in buses and I feel an increase in service . This would keep down pollution both noise and air and could keep people on the move rather than cars in the inner city. With these terminuses car parking could be available so as cars can be parked there and the electric shuttles can transport persons to the inner city.</p>
