### Questions

- ① Do you have any comments on the major projects in our draft Our Community Plan? page number 4

My husband & I are totally against the proposal to close libraries and the mobil library - this proposal will badly affect those best able to help themselves - such as mothers with young families and the ill disabled or elderly. If you really want to save money on those please incur a small fee such as 20c per book borrowed - you'll be surprised how that would mount up each year, I personally would prefer that, as I wouldn't have access to other libraries.

- ② Do you have any comments on groups of activities (the activities and services that Council provides)? page number 10

I cannot believe the poor planning when building the new ART gallery only 2 or 3 years ago - and already due to short sightedness it needs the air conditioning upgraded. What were the "experts" advising at the time - this is expenditure that should have been part of the new building. No one could run their household budgets in such a manner.

Page 3 The same thoughts are for the Bus Xchange - how was that so poorly planned that it already is too small - you need better advice to spend once and spend wisely. Our household budget is not able to sustain the ever increasing council blowouts - so think of us who are on fixed incomes.

- ③ Do you have any other comments or suggestions you want to make? page number

- Get Better advice - before spending unwisely  
- Ask the community before planning "feel good" projects  
- Keep to the core business of council - that is more important to us than the "warm fuzzy" projects which the average household doesn't want or use

- Improve the service customers get when visiting the council for building permits or resource consents etc.  
- The city will not revitalise until you

You may add more pages if you wish. Thank you for your submission.

Have free parking - making it "pretty" will not encourage us to venture into the city.
